DETAILED ACTION

Allowable Subject Matter

1. In claim 25, line 2, "197" should read "17", which is a typing error.
2. An "Amendment" was received on September 19, 2005, in response to Office Action of May 18, 2005.
3. Claims 1-29 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. With respect to independent claim 1, prior art fails to disclose a mass spectrometry system for continuous control of environment by detecting a source of contamination comprising: system carrying means; a sampling unit installed in the system carrying means having sample extraction means for extracting samples from the environment, said sampling unit having an output, an ionization device connected to the output of the sampling unit and supported by the system carrying means, the ionization device forming a beam of ionized particles from the samples, the ionization device having an ionization device input and an ionization device output, a time-of-flight mass spectrometer, which is supported by the system carrying means and has a mass spectrometer input, mass spectrometer output, and a deflector modulator connected to the ionization device output for alternately deflecting the beam of ionized particles with a predetermined angle for dividing the beam of ionized particles into two independent flows guided along two independent trajectories, and a data acquisition and analysis unit that acquires data from said sampling unit, the ionization device, and the time-of-flight mass spectrometer, the data acquisition and analysis unit having means for
